HS-75-RFC

"Amazing Speed, we are loving it!"

More Capacity and Wireless Connection

Introduction

HS-75-RFC is a face identification T&A terminal with face, PIN and RFID recognition modes. With the latest face identification algorithm and streamlines technology, it can hold 400 face templates without dividing into groups and complete verification in less than 1 second. Communicating via Wi-Fi, Ethernet, and data transfer. All the settings can be easily done on 3 inch TFT touch screed. It has elaborately designed and finely processed to match your slap-up office perfectly.

Designed in USA

RoHS   CE   FC
